

3. } Foams and adhesive tapes

created by Castelein Sealants

Thanks to our extensive range of foams and adhesive tapes we can offer you a suitable solution for any application (airtight, waterproof, sound-proof or antivibration) in one-sided, double-sided or non-adhesive versions (see sample card).

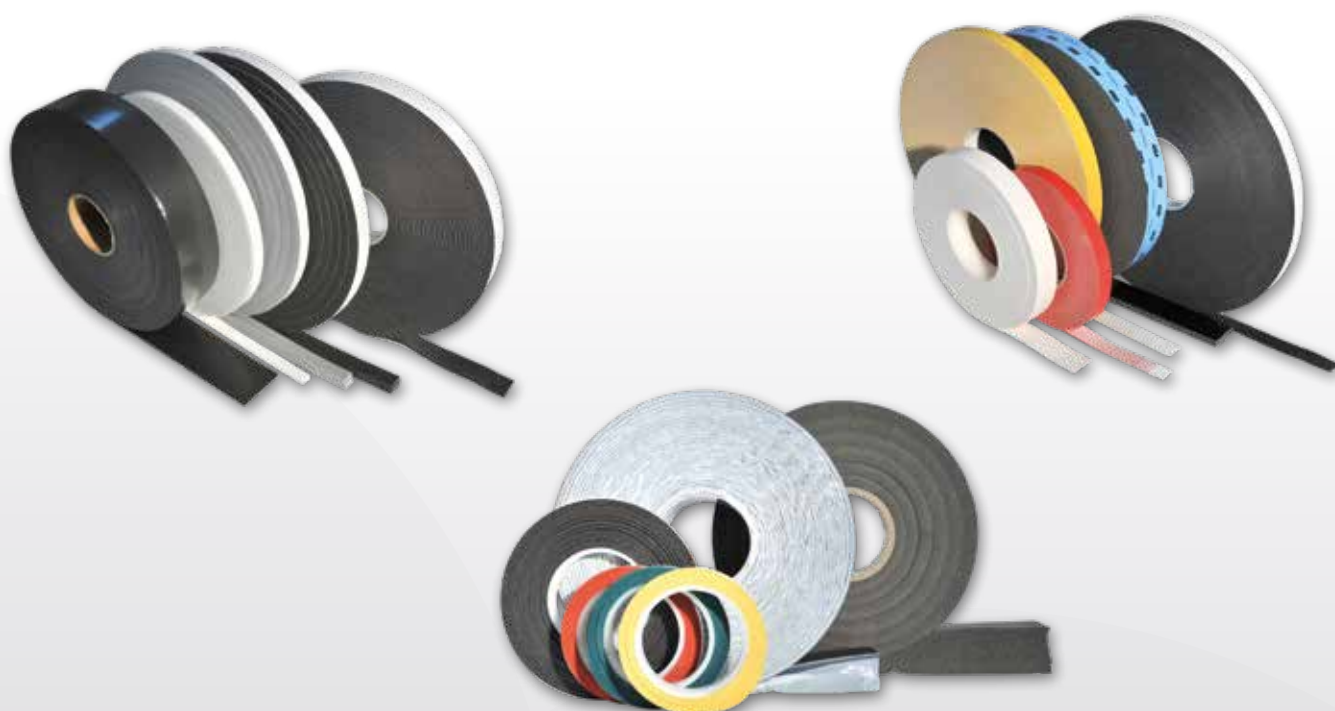

We can deliver our products on rolls, in strips or CAD forms, depending on your needs.

An overview of the most important versions:

1

Cut to size, on rolls

All our tapes can be cut to the width you need

2

CAD forms

All our materials can be cut in all possible 2D shapes.

Examples:
